

## **Statement re California Transparency in Supply Chains Act of 2010**

FormFactor is one of the world's leading suppliers of semiconductor wafer probe cards and manufactures custom products designed to customers' unique specifications and requirements. To timely meet its customers' requirements, FormFactor interacts closely with its suppliers of raw materials, of parts and of components. FormFactor requests its suppliers and vendors to comply with all applicable laws, including laws against slavery or human trafficking. FormFactor does not currently have a formal process in place requiring supplier verification of compliance with CA Civil Code §1714.43, but is working to adopt such a program. FormFactor maintains a Statement of Corporate Code of Business Conduct, which it requires all of its directors, officers and employees to follow and annually review, and is committed to conducting business in an ethical and responsible manner. This commitment includes FormFactor's absolute opposition to slavery and human trafficking.

FormFactor will update this Statement as it puts into place any additional, relevant procedures and processes it considers appropriate to carry out the purposes of this Statement.
