# FORMFACTOR, INC. NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

#### Note 1 — Basis of Presentation and New Accounting Pronouncements

#### **Basis of Presentation**

The condensed consolidated financial information included herein has been prepared by FormFactor, Inc. without audit, in accordance with accounting principles generally accepted in the United States of America ("GAAP") and pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). However, such information reflects all adjustments, consisting only of normal recurring adjustments, which are, in the opinion of management, necessary for a fair presentation of the financial position, results of operations and cash flows for the interim periods. The financial information as of December 30, 2017 is derived from our 2017 Annual Report on Form 10-K. The condensed consolidated financial statements included herein should be read in conjunction with the consolidated financial statements and the notes thereto included in our 2017 Annual Report on Form 10-K. The results of operations for the interim periods presented are not necessarily indicative of the results to be expected for the full year.

#### Fiscal Year

We operate on a 52/53 week fiscal year, whereby the fiscal year ends on the last Saturday of December. Fiscal 2018 and 2017 each contain 52 weeks and the three months ended March 31, 2018 and April 1, 2017 each contained 13 weeks. Fiscal 2018 will end on December 29, 2018.

#### Reclassifications

Certain immaterial reclassifications were made to the prior period financial statements to conform to the current period presentation.

#### **Critical Accounting Policies**

Our critical accounting policies have not changed during the three months ended March 31, 2018 from those disclosed in our Annual Report on Form 10-K for the year ended December 30, 2017, except for:

#### Revenue Recognition

Revenue is recognized upon transferring control of products and services, and the amounts recognized reflect the consideration we expect to be entitled to receive in exchange for these products and services. Revenue is recognized net of any taxes collected from customers, which are subsequently remitted to governmental authorities. An arrangement may include some or all of the following products and services: probe cards, systems, accessories, installation services, service contracts and extended warranty contracts. We sell our products and services direct to customers and to partners in two distribution channels: global direct sales force and through a combination of manufacturers' representatives and distributors.

A performance obligation is a promise in a contract to transfer a distinct good or service to the customer. In contracts with multiple performance obligations, we identify each performance obligation and evaluate whether the performance obligation is distinct within the context of the contract at contract inception. Performance obligations that are not distinct at contract inception are combined and accounted for as one unit of account. Generally, the performance obligations in a contract are considered distinct within the context of the contract and are accounted for as separate units of account.

Our products may be customized to our customers' specifications, however, control of our products are typically transferred to the customer at the point in time the product is either shipped or delivered, depending on the terms of the arrangement, as the criteria for overtime recognition are not met. In limited circumstances, substantive acceptance by the customer exists which results in the deferral of revenue until acceptance is formally received from the customer. Judgment may be required in determining if the acceptance clause is substantive.

Installation services are routinely provided to customers purchasing our systems. Installation services are a distinct performance obligation apart from the systems and recognized in the period they are performed. Service contracts, which include repair and maintenance service contracts, and extended warranty contracts are also distinct performance obligations and recognized as our performance obligations are satisfied. This is typically the contractual service period, which ranges from one to two years. For these service contracts recognized over time, we use an input measure, days elapsed, to measure progress.

A contract's transaction price is allocated to each distinct performance obligation and recognized as revenue when, or as, the performance obligation is satisfied. In determining the transaction price, we evaluate whether the price is subject to refund or adjustment to determine the net consideration to which we expect to be entitled. We generally do not grant return privileges, except

for defective products during the warranty period. Sales incentives and other programs that we may make available to these customers are considered to be a form of variable consideration, which is estimated in determining the contract's transaction price to be allocated to the performance obligations. We have elected the practical expedient under ASC 606-10-32-18 to not assess whether a contract has a significant financing component as our standard payment terms are less than one year.

For contracts with multiple performance obligations, we allocate the contract's transaction price to each performance obligation based on its relative standalone selling price. The stand-alone selling prices are determined based on the prices at which we separately sell these products. For items that are not sold separately, we estimate the stand-alone selling prices using our best estimate of selling price.

**Transaction price allocated to the remaining performance obligations:** On March 31, 2018, we had \$3.6 million of remaining performance obligations, which were comprised of deferred service contracts and extended warranty contracts not yet delivered. We expect to recognize approximately 20.6% of our remaining performance obligations as revenue in fiscal 2019, and additional 8.7% in fiscal 2020 and thereafter. The foregoing excludes the value of other remaining performance obligations as they have original durations of one year or less, and also excludes information about variable consideration allocated entirely to a wholly unsatisfied performance obligation.

**Contract balances:** The timing of revenue recognition may differ from the timing of invoicing to customers. Accounts receivable is recorded at the invoiced amount, net of an allowance for doubtful accounts. A receivable is recognized in the period we deliver goods or provide services or when our right to consideration is unconditional. A contract asset is recorded when we have performed under the contract but our right to consideration is conditional on something other than the passage of time. Contract assets as of March 31, 2018 and December 30, 2017 were \$1.5 million and \$1.6 million, respectively, and are reported on the Condensed Consolidated Balance Sheet as a component of Prepaid expenses and other current assets.

Contract liabilities include payments received in advance of performance under a contract and are satisfied as the associated revenue is recognized. Contract liabilities are reported on the Condensed Consolidated Balance Sheets on a contract-by-contract basis at the end of each reporting period as a component of Deferred revenue and Deferred rent and other liabilities. Contract liabilities as of March 31, 2018 and December 30, 2017 were \$5.2 million and \$5.7 million, respectively. During the period ended March 31, 2018, we recognized \$2.4 million of revenue that was included in contract liabilities as of December 30, 2017.

**Costs to obtain a contract:** We generally expense sales commissions when incurred as a component of Selling, general and administrative expense as the amortization period is typically less than one year.

**Revenue by Category:** Refer to Note 12 of Notes to Consolidated Financial Statements for further details.

#### **New Accounting Pronouncements**

#### ASU 2016-10, ASU 2015-14 and ASU 2014-09

In May 2014, the Financial Accounting Standard Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-09, "Revenue from Contracts with Customers," and, in August 2015, the FASB issued ASU 2015-14, "Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date," which defers the effective date of ASU 2014-09 by one year. ASU 2014-09 requires an entity to recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which an entity expects to be entitled in exchange for those goods or services. The guidance also requires expanded disclosures relating to the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. Additionally, qualitative and quantitative disclosures are required about customer contracts, significant judgments and changes in judgments, and assets recognized from the costs to obtain or fulfill a contract. The standard permits the use of either the retrospective or modified retrospective transition methods. In April 2016, the FASB issued ASU 2016-10, "Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing" which was issued to clarify ASC Topic 606, "Revenue from Contracts with Customers" related to (i) identifying performance obligations; and (ii) the licensing implementation guidance. We adopted Accounting Standards Codification ("ASC") 606, Revenue from Contracts with Customers and all related amendments (collectively "ASC 606"), on December 31, 2017, the first day of fiscal 2018, using the modified retrospective method. We applied ASC 606 to all contracts not completed as of the date of adoption in order to determine any adjustment to the opening balance of retained earnings. Under the modified retrospective adoption method, the comparative financial information has not been restated and continues to be reported under the accounting standards in effect for those periods, ASC 605, "Revenue Recognition", which is

The adoption of ASC 606 did not have a material impact on our consolidated financial statements as of December 31, 2017. No adjustment was recorded to accumulated deficit as of the adoption date and reported revenue would not have been different under

legacy GAAP. Additionally, we do not expect the adoption of the revenue standard to have a material impact to our net income on an ongoing basis.

#### ASU 2017-12

In August 2017, the FASB issued ASU2017-12, "Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities," which changes the recognition and presentation requirements of hedge accounting, including eliminating the requirement to separately measure and report hedge ineffectiveness and changing the presentation to include all items that affect earnings in the same income statement line item as the hedged item. ASU 2017-12 also provides new alternatives for applying hedge accounting to additional hedging strategies, measuring the hedged item in fair value hedges of interest rate risk, reducing the cost and complexity of applying hedge accounting and reducing the risk of material error correction if a company applies the shortcut method inappropriately. ASU 2017-12 is effective for fiscal years, including interim periods within those fiscal years, beginning after December 15, 2018, on a prospective basis. We early adopted ASU 2017-12 on December 31, 2017, the first day of fiscal 2018, resulting in an immaterial adjustment in our accumulated deficit on December 30, 2017. The adjustment was reflected in our Condensed Consolidated Balance Sheets as of that date.

#### ASU 2017-09

In May 2017, the FASB issued ASU 2017-09, "Compensation - Stock Compensation (Topic 718) - Scope of Modification Accounting," which provides clarity and reduces both diversity in practice and the cost and complexity when accounting for a change to the terms of a stock-based award. ASU 2017-09 is effective for fiscal years, including interim periods within those fiscal years, beginning after December 15, 2017, on a prospective basis. We adopted ASU 2017-09 on December 31, 2017, the first day of fiscal 2018. There were no modifications to any stock-based awards during the three months ended March 31, 2018.

#### ASU 2017-04

In January 2017, the FASB issued ASU 2017-04, "Intangibles - Goodwill and Other (Topic 350) - Simplifying the Test for Goodwill Impairment," which simplifies the subsequent measurement of goodwill by eliminating Step 2 from the goodwill impairment test. An entity should perform its annual, or interim, goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount, and recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value, if applicable. The loss recognized should not exceed the total amount of goodwill allocated to the reporting unit. The same impairment test also applies to any reporting unit with a zero or negative carrying amount. An entity still has the option to perform the qualitative assessment for a reporting unit to determine if the quantitative impairment test is necessary. ASU 2017-04 is effective for fiscal years, including interim periods within those fiscal years, beginning after December 15, 2019, on a prospective basis. Early adoption is permitted for interim or annual goodwill impairment tests performed after January 1, 2017. We do not expect the adoption of ASU 2017-04 to have a material effect on our financial position, results of operations or cash flows.

#### ASU 2016-18

In November 2016, the FASB issued ASU 2016-18, "Statement of Cash Flows (Topic 230) - Restricted Cash," which requires that a statement of cash flows explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash or restricted cash equivalents. Therefore, an entity should include amounts generally described as restricted cash equivalents within cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. Prior to this ASU, there was no guidance to address how to classify and present changes in restricted cash or restricted cash equivalents. The updated guidance is effective for interim and annual periods beginning after December 15, 2017. We adopted ASU 2016-18 as of December 31, 2017, the first day of fiscal 2018 and retrospectively applied such guidance to our Consolidated Statements of Cash Flows.

The following table provides a reconciliation of Cash and cash equivalents as previously reported within the Condensed Consolidated Statements of Cash Flows to Cash, cash equivalents and restricted cash as currently reported in the Condensed Consolidated Statements of Cash Flows (in thousands):

	Dece	December 30, 2017		April 1, 2017		cember 31, 2016

Condensed Consondated Statements of Cash Flows		32,720	Ψ	110,007	<del>-</del>	102,000

As of March 31, 2018, Restricted cash was comprised primarily of funds held by our foreign subsidiaries for employee obligations, office leases and customer deposits.

#### ASU 2016-02

In February 2016, the FASB issued ASU 2016-02, "Leases," which requires the recognition of right-of-use assets and lease liabilities for all long-term leases, including operating leases, on the balance sheet. The new standard also provides additional guidance on the measurement of the right-of-use assets and lease liabilities and will require enhanced disclosures about the Company's leasing arrangements. Under current accounting standards, substantially all of the Company's leases are considered operating leases and, as such, are not recognized on the Consolidated Balance Sheet. This new standard is effective for the Company beginning on January 1, 2019, with early adoption permitted. As initially issued, the standard required a "modified retrospective" adoption, meaning the standard is applied to leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements. In March 2019, the FASB approved an amendment to Topic 842 that permits a company to use its effective date as the date of initial application, and therefore, not restate comparative prior period financial information. The Company is currently assessing the impact of the new standard on its Consolidated Financial Statements and has not yet determined its transition method.

#### Note 2 — Concentration of Credit and Other Risks

Each of the following customers accounted for 10% or more of our revenues for the periods indicated:

	Three Months Ended			
	March 31, 2018	April 1, 2017		
Intel	14.0%	26.7%		
SK Hynix	10.1	_		
Samsung	_	10.3		
Total revenues attributable to 10% or greater customers	24.1%	37.0%		

At March 31, 2018, three customers accounted for 13.7%, 12.7% and 10.4% of gross accounts receivable, respectively. At December 30, 2017, two customers accounted for 24.1% and 13.6% of gross accounts receivable, respectively. No other customers accounted for 10% or more of gross accounts receivable at either of these fiscal period ends.

#### Note 3 — Inventories

Inventories are stated at the lower of cost (principally standard cost, which approximates actual cost on a first in, first out basis) or net realizable value.

Inventories consisted of the following (in thousands):

#### Note 6 — Restructuring Charges

Restructuring charges are comprised of costs related to employee termination benefits as well as contract termination costs, and are included in Restructuring and impairment charges, net in the Consolidated Statements of Income.

Restructuring charges were \$0.3 million in the first quarter of fiscal 2017 and related to the consolidation of an acquired subsidiary into our operations.

There were no restructuring charges in the first quarter of fiscal 2018. Changes to the restructuring accrual in the three months ended March 31, 2018 were as follows (in thousands):

	Seve	mployee erance and Benefits	Ter	ontract mination Other Costs	Total
Accrual at December 30, 2017	\$	398	\$	1	\$ 399
Cash payments		(398)		(1)	(399)
Accrual at March 31, 2018	\$		\$		\$ _

#### Note 7 — Fair Value and Derivative Instruments

Whenever possible, the fair values of our financial assets and liabilities are determined using quoted market prices of identical securities or quoted market prices of similar securities from active markets. The three levels of inputs that may be used to measure fair value are as follows:

- Level 1 valuations are obtained from real-time quotes for transactions in active exchange markets involving identical securities;
- Level 2 valuations utilize significant observable inputs, such as quoted prices for similar assets or liabilities, quoted prices near the reporting date in markets that are less active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; and
- Level 3 valuations utilize unobservable inputs to the valuation methodology and include our own data about assumptions market participants would use in ricing the asset or liability based on the best information available under the circumstances.

We did not have any transfers of assets or liabilities measured at fair value on a recurring basis to or from Level 1, Level 2 or Level 3 during the three months ended March 31, 2018 or the year ended December 30, 2017.

The carrying values of Cash, Accounts receivable, net, Restricted cash, Prepaid expenses and other current assets, Accounts payable and Accrued liabilities approximate fair value due to their short maturities.

No changes were made to our valuation techniques during the first three months of fiscal 2018.

#### Assets and Liabilities Measured at Fair Value on a Recurring Basis

Assets and liabilities measured at fair value on a recurring basis were as follows (in thousands):

We did not have any liabilities measured at fair value on a recurring basis at December 30, 2017.

# Cash Equivalents

The fair value of our cash equivalents is determined based on quoted market prices for similar or identical securities.

#### **Marketable Securities**

We classify our marketable securities as available-for-sale and value them utilizing a market approach. Our investments are priced by pricing vendors who provide observable inputs for their pricing without applying significant judgment. Broker pricing is used mainly when a quoted price is not available, the investment is not priced by our pricing vendors or when a broker price is more reflective of fair value. Our broker-priced investments are categorized as Level 2 investments because fair value is based on similar assets without applying significant judgments. In addition, all of our investments have a sufficient level of trading volume to demonstrate that the fair value is appropriate.

Unrealized gains and losses were immaterial and were recorded as a component of Accumulated other comprehensive income in

our Condensed Consolidated Balance Sheets. We did not have any other-than-temporary unrealized gains or losses at either period end included in these financial statements.

#### **Interest Rate Swaps**

The fair value of our interest rate swap contracts is determined at the end of each reporting period based on valuation models that use interest rate yield curves as inputs. For accounting purposes, our interest rate swap contracts qualify for, and are designated as, cash flow hedges. The cash flows associated with the interest rate swaps are reported in Net cash provided by operating activities in our Condensed Consolidated Statements of Cash Flows and the fair value of the interest rate swap contracts in recorded within Prepaid expenses and other current assets and Other assets in our Condensed Consolidated Balance Sheets.

The impact of the interest rate swaps on our Condensed Consolidated Statements of Income was as follows (in thousands):

	Amount of Gain or (Loss) Recognized in OCI on Derivative		n or Location of Gain ss) or (Loss) nized Reclassified from Accumulated		unt of Gain (Loss) ssified from umulated nto Income
Three Months Ended March 31, 2018	\$	255	Interest expense	\$	132
Three Months Ended April 1, 2017	\$	120	Interest expense	\$	(37)

# Foreign Exchange Derivative Contracts

We operate and sell our products in various global markets. As a result, we are exposed to changes in foreign currency exchange rates. We utilize foreign currency forward contracts to hedge against future movements in foreign exchange rates that affect certain existing foreign currency denominated assets and liabilities and forecasted foreign currency revenue and expense transactions. Under this program, our strategy is to have increases or decreases in our foreign currency exposures mitigated by gains or losses on the foreign currency forward contracts in order to mitigate the risks and volatility associated with foreign currency transaction gains or losses.

We do not use derivative financial instruments for speculative or trading purposes. For accounting purposes, our foreign currency forward contracts are not designated as hedging instruments and, accordingly, we record the fair value of these contracts as of the end of our reporting period in our Condensed Consolidated Balance Sheets with changes in fair value recorded within Other expense, net in our Condensed Consolidated Statement of Income for both realized and unrealized gains and losses.

The fair value of our foreign exchange derivative contracts was determined based on current foreign currency exchange rates and forward points. All of our foreign exchange derivative contracts outstanding at March 31, 2018 will mature in the second quarter of fiscal 2018.

The following table provides information about our foreign currency forward contracts outstanding as of March 31, 2018 (in thousands):

Currency	Position	(Local Currency)	.S. Dollars)

#### Assets and Liabilities Measured at Fair Value on a Non-Recurring Basis

We measure and report goodwill and intangible assets at fair value on a non-recurring basis if we determine these assets to be impaired or in the period when we make a business acquisition. There were no assets or liabilities measured at fair value on a nonrecurring basis during the three months ended March 31, 2018 or April 1, 2017.

#### Note 8 — Warranty

We offer warranties on certain products and record a liability for the estimated future costs associated with warranty claims at the time revenue is recognized. The warranty liability is based upon historical experience and our estimate of the level of future costs. While we engage in product quality programs and processes, our warranty obligation is affected by product failure rates, material usage and service delivery costs incurred in correcting a product failure. We continuously monitor product returns for warranty and maintain a reserve for the related expenses based upon our historical experience and any specifically identified field failures. As we sell new products to our customers, we must exercise considerable judgment in estimating the expected failure rates. This estimating process is based on historical experience of similar products, as well as various other assumptions that we believe to be reasonable under the circumstances.

We provide for the estimated cost of product warranties at the time revenue is recognized as a component of Cost of revenues in our Condensed Consolidated Statement of Income.

A reconciliation of the changes in our warranty liability was as follows (in thousands):

#### Note 9 — Stockholders' Equity and Stock-Based Compensation

#### Common Stock Repurchase Program

In February 2017, our Board of Directors authorized a program to repurchase up to \$25 million of outstanding common stock to offset potential dilution from issuances of common stock under our employee stock purchase plan and equity incentive plan. The share repurchase program will expire on February 1, 2020. Repurchased shares are retired upon the settlement of the related transactions with the excess of cost over par value charged to additional paid-in capital. All repurchases are made in compliance with Rule 10b-18 under the Securities Exchange Act of 1934, as amended.

During the three months ended March 31, 2018, we did not repurchase any shares. As of March 31, 2018, \$6.0 million remained available for future repurchases.

#### **Restricted Stock Units**

Restricted stock unit ("RSU") activity under our equity incentive plan was as follows:

	Units	Ave	Weighted erage Grant e Fair Value

Our lease commitments, purchase obligations and other contractual obligations have not materially changed as of March 31, 2018 from those disclosed in our Annual Report on Form 10-K for the year ended December 30, 2017.

#### Legal Matters

Operating

income (loss)

From time to time, we may be subject to legal proceedings and claims in the ordinary course of business. As of March 31, 2018, and as of the filing of this Quarterly Report on Form 10-Q, we were not involved in any material legal proceedings.

# Note 12 — Operating Segments and Enterprise-Wide Information

Our chief operating decision maker ("CODM") is our Chief Executive Officer, who reviews operating results to make decisions about allocating resources and assessing performance for the entire company. We operate in two reportable segments consisting of the Probe Cards Segment and the Systems Segment.

#### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

#### **Cautionary Statement Regarding Forward-Looking Statements**

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the Securities Exchange Act of 1934 and the Securities Act of 1933, which are subject to risks and uncertainties. The forward-looking statements include statements concerning, among other things, our business strategy, financial and operating results, gross margins, liquidity and capital expenditure requirements, impact of accounting standards and our share repurchase plan. In some cases, you can identify these statements by forward-looking words, such as "may," "might," "will," "could," "should," "expect," "plan," "anticipate," "believe," "estimate," "predict," "intend" and "continue," the negative or plural of these words and other comparable terminology.

The forward-looking statements are only predictions based on our current expectations and our projections about future events. All forward-looking statements included in this Quarterly Report on Form 10-Q are based upon information available to us as of the filing date of this Quarterly Report on Form 10-Q. You should not place undue reliance on these forward-looking statements. We have no obligation to update any of these statements. These forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to differ materially from those expressed or implied by these statements, including risks related to general market trends, our ability to execute our business strategy and other risks discussed in the section titled "Risk Factors" and elsewhere in our Annual Report on Form 10-K for the year ended December 30, 2017 and in this Quarterly Report on Form 10-Q. You should carefully consider the numerous risks and uncertainties described under these sections.

The following discussion and analysis should be read in conjunction with our condensed consolidated financial statements and the accompanying notes contained in this Quarterly Report on Form 10-Q. Unless expressly stated or the context otherwise requires, the terms "we," "our," "us" and "FormFactor" refer to FormFactor, Inc. and its subsidiaries.

#### Overview

FormFactor, Inc., headquartered in Livermore, California, is a leading provider of test and measurement solutions. We provide a broad range of high-performance probe cards, analytical probes, probe stations and thermal sub-systems to both semiconductor companies and scientific institutions. Our products provide electrical information from a variety of semiconductor and electro-optical devices and integrated circuits (devices) from development to production. Customers use our products and services to lower production costs, improve yields, and enable development of complex next-generation devices.

We operate in two reportable segments consisting of the Probe Cards segment and the Systems segment. Sales of our probe cards and analytical probes are included in the Probe Cards Segment, while sales of our probe stations and thermal sub-systems are included in the Systems Segment.

We generated net income of \$2.1 million in the first three months of fiscal 2018 as compared to \$5.2 million in the first three months of fiscal 2017. The decrease in net income was primarily due to decreased revenue from our Probe Cards segment and increased operating expenses, partially offset by improved gross margins.

#### **Critical Accounting Policies and the Use of Estimates**

Management's Discussion and Analysis and Note 2 to the Consolidated Financial Statements in our 2017 Annual Report on Form 10-K describe the significant accounting estimates and critical accounting policies used in preparation of the Consolidated Financial Statements. Actual results in these areas could differ from management's estimates. During the three months ended March 31, 2018, other than the adoption of new revenue recognition guidance as described in Note 1, there were no significant changes in our critical accounting policies or estimates from those reported in our Annual Report on Form 10-K for the year ended December 30, 2017, which was filed with the Securities and Exchange Commission on February 27, 2018.

# **Results of Operations**

Systems		23,362		22,333					
	\$	118,290	\$	128,829					

The decrease in Probe Cards Segment revenue for the three months ended March 31, 2018, compared to the three months ended April 1, 2017 was primarily the result of decreased unit sales in the Foundry & Logic market, offset partially by increased unit sales in the DRAM and Flash markets.

The increase in Systems Segment revenue for the three months ended March 31, 2018 compared to the three months ended April 1, 2017 was driven by increased unit sales of thermal sub-systems due to increased customer demand, offset partially by lower revenue from probe stations due to changes in product sales mix which decreased the average selling price of unit sold.

Total revenues	\$	118,290	100.0%	\$	128,829	100.0%	\$	(10,539)	(8.2)%

The decrease in Foundry & Logic product revenue for the three months ended March 31, 2018, compared to the three months ended April 1, 2017 was primarily the result of lower demand from one major customer.

The increase in DRAM and Flash product revenue for the three months ended March 31, 2018, compared to the three months ended April 1, 2017 was the result of increased customer demand.

The increase in Systems product revenue for the three months ended March 31, 2018 compared to three months ended April 1, 2017 was driven by increased unit sales of thermal sub-systems due to increased customer demand, offset partially by lower revenue from probe stations due to changes in product sales mix which decreased the average selling price of units sold.

<sup>(1)</sup> Asia-Pacific includes all countries in the region except Taiwan, South Korea and Japan, which are disclosed separately.

Geographic revenue information is based on the location to which we ship the product. For example, if a certain South Korean customer purchases through their U.S. subsidiary and requests the products to be shipped to an address in South Korea, this sale will be reflected in the revenue for South Korea rather than U.S.

Changes in revenue by geographic region for the three months ended March 31, 2018 compared to three months ended April 1, 2017 were primarily attributable to changes in customer demand and product sales mix as previously described.

### Cost of Revenues and Gross Margins

Cost of revenues consists primarily of manufacturing materials, payroll, shipping and handling costs, manufacturing-related overhead and amortization of certain intangible assets. Our manufacturing operations rely on a limited number of suppliers to provide key components and materials for our products, some of which are a sole source. We order materials and supplies based on backlog and forecasted customer orders. Tooling and setup costs related to changing manufacturing lots at our suppliers are also included in the cost of revenues. We expense all warranty costs, inventory provisions and amortization of certain intangible assets as cost of revenues.

Corporate and Other includes unallocated expenses relating to amortization of intangible assets, share-based compensation expense, acquisition-related costs, including charges related to inventory stepped up to fair value, and other costs, which are not used in evaluating the results of, or in allocating resources to, our reportable segments. Acquisition-related costs include transaction costs and any costs directly related to the acquisition and integration of acquired businesses.

Our gross profit and gross margin were as follows (dollars in thousands):

Gross margin	42.2%	47.7%	%	38.2%	40.2%	54.1%	—%	36.9%

#### **Probe Cards**

For the three months ended March 31, 2018, gross profit in the Probe Cards segment decreased due to decreased sales, while gross margins increased due to favorable product mix, lower amortization of intangibles and lower inventory reserves, offset partially by decreased factory utilization.

#### Systems

For the three months ended March 31, 2018, gross profit and gross margin in the Systems segment decreased due to changes in foreign currency exchange rates and changes in product sales mix.

#### Overall

Gross profit and gross margin fluctuate with revenue levels, product mix, selling prices, factory loading and material costs. For the three months ended March 31, 2018 compared to the three months ended April 1, 2017, gross profit decreased due to lower revenue, and gross margins increased due to favorable product mix and lower amortization of intangibles.

Cost of revenues included stock-based compensation expense as follows (in thousands):

	Three Months Ended				
	rch 31, 2018	April 1, 2017			
Stock-based compensation	\$ 920	\$	854		

Future gross margins may be adversely impacted by lower revenues and lower factory utilization even though we have taken significant steps to reduce our operating cost structure. Our gross margins may also be adversely affected if we are required to record additional inventory write-downs for estimated average selling prices of products held in finished goods and work in process inventories that are below the manufacturing cost of those products.

Restructuring charges are comprised of costs related to employee termination benefits, cost of long-lived assets abandoned or impaired, as well as contract termination costs.

Restructuring charges in the first quarter of fiscal 2017 were related to the consolidation of Cascade Microtech into our operations.

#### Interest Income and Interest Expense

Average debt outstanding	\$	106,058	\$	139,224	
Weighted average interest rate on debt		3.61%		2.78%	

Interest income is earned on our cash, cash equivalents, restricted cash and marketable securities. The increase in interest income for the three months ended March 31, 2018 compared with corresponding period of prior year is attributable to higher investment yields.

Interest expense primarily includes interest on our term loan and interest-rate swap derivative contracts and term loan issuance costs amortization charges. The decrease in interest expense for the three months ended March 31, 2018 compared to three months ended April 1, 2017 was due to a lower outstanding debt balance as a result of principal payments made.

#### Other Income (Expense), Net

Other income (expense), net primarily includes the effects of foreign currency impact and various other gains and losses.

#### **Provision for Income Taxes**

	(Dollars in	thousands)
Provision for income taxes	287	367
Effective income tax rate	11.9%	6.6%

Provision for income taxes reflects the tax provision on our operations in foreign and U.S. jurisdictions, offset by tax benefits from lapsing of statute of limitations related to uncertain tax positions in foreign jurisdictions. We continue to maintain a full valuation allowance against our U.S. Federal and State deferred tax assets. The change in provision for taxes primarily relates to higher profits in foreign jurisdictions and an increase in state income taxes due to fully utilized net operating losses in certain state jurisdictions.

### **Liquidity and Capital Resources**

# Capital Resources

Our working capital was \$215.2 million at March 31, 2018 which did not change significantly with \$213.7 million at December 30, 2017.

Cash and cash equivalents primarily consist of deposits held at banks and money market funds. Marketable securities primarily consist of U.S. agency securities and corporate bonds. We typically invest in highly-rated securities with low probabilities of default. Our investment policy requires investments to be rated single A or better, and limits the types of acceptable investments, issuer concentration and duration of the investment.

Our cash, cash equivalents and marketable securities totaled approximately \$142.1 million at March 31, 2018, as compared to \$140.2 million at December 30, 2017. We believe that we will be able to satisfy our working capital requirements for at least the next twelve months with the liquidity provided by our existing cash, cash equivalents, marketable securities and cash provided by operations. To the extent necessary, we may consider entering into short and long-term debt obligations, raising cash through a stock issuance, or obtaining new financing facilities, which may not be available on terms favorable to us. Our future capital requirements may vary materially from those now planned.

If we are unsuccessful in maintaining or growing our revenues, maintaining or reducing our cost structure (in response to an industry demand downturn or other event), or increasing our available cash through debt or equity financings, our cash, cash equivalents and marketable securities may decline in fiscal 2018.

We utilize a variety of tax planning and financing strategies in an effort to manage our worldwide cash and deploy funds to locations where they are needed. As part of these strategies, we indefinitely reinvest a significant portion of our foreign earnings and our current plans do not demonstrate a need to repatriate these earnings. Should we require additional capital in the United States, we may elect to repatriate indefinitely-reinvested foreign funds or raise capital in the United States.

#### Cash Flows

The following table sets forth our net cash flows from operating, investing and financing activities:

	Three Months Ended				
	March 31, 2018			ril 1, 2017	
	(In thousands)				
Net Cash provided by operating activities	\$	9,322	\$	17,803	
Net cash used in investing activities	\$	(3,391)	\$	(3,451)	
Net cash used in financing activities	\$	(4,353)	\$	(2,651)	

#### **Operating Activities**

Net cash provided by operating activities for the three months ended March 31, 2018 was primarily attributable to our operations generating \$18.3 million of cash (a net income of \$2.1 million, which included \$16.2 million of net non-cash expenses), offset by operating assets and liabilities using \$9.0 million of cash as discussed in more detail below.

Accounts receivable, net, decreased \$3.0 million to \$78.5 million at March 31, 2018 compared to \$81.5 million at December 30, 2017 as a result of decreased revenues, timing of customer shipments and contractual payment terms.

Inventories, net, increased \$5.9 million to \$73.8 million at March 31, 2018 compared to \$67.8 million at December 30, 2017 as a result of increased inventory build in anticipation of future revenue growth.

Accounts payable increased \$3.8 million to \$38.9 million at March 31, 2018 compared to \$35.0 million at December 30, 2017 as a result of timing of payments.

Accrued liabilities decreased \$10.2 million to \$23.5 million at March 31, 2018 compared to \$33.7 million at December 30, 2017 as a result of decreases in accruals for employee stock purchase plan, salaries and bonuses.

#### **Investing Activities**

Net cash used in investing activities for the three months ended March 31, 2018 was primarily related to \$3.8 million of cash used in the acquisition of property, plant and equipment, partially offset by \$0.4 million of net maturities of marketable securities.

#### Financing Activities

Net cash used in financing activities for the three months ended March 31, 2018 primarily related to \$8.8 million of principal payments made towards the repayment of our term loan and \$0.4 million related to tax withholdings associated with the net share settlements of our equity awards, partially offset by \$4.8 million of proceeds received from issuances of common stock under our employee stock purchase plan and exercise of stock options.

### **Debt Facility**

On June 24, 2016, we entered into a credit agreement (the "Credit Agreement") with HSBC Bank USA, National Association ("HSBC"). Pursuant to the Credit Agreement, the lenders provided us with a senior secured term loan facility of \$150 million (the "Term Loan"). The proceeds of the Term Loan were used to finance a portion of the purchase price paid in connection with the acquisition of Cascade Microtech.

The Term Loan bears interest at a rate equal to, at our option, (i) the applicable London Interbank Offered Rate ("LIBOR") rate plus 2.00% per annum or (ii) Base Rate (as defined in the Credit Agreement) plus 1.00% per annum. We have currently elected to pay interest at 2.00% over the one-month LIBOR rate. Interest payments are payable in quarterly installments over a five-year

period. The Term Loan amortizes in equal quarterly installments, which began June 30, 2016, in annual amounts equal to 5% for year one, 10% for year two, 20% for year three, 30% for year four and 35% for year five.

The obligations under the Term Loan are guaranteed by substantially all of our assets and the assets of our domestic subsidiaries, subject to certain customary exceptions.

The Credit Agreement contains negative covenants customary for financing of this type, as well as certain financial maintenance covenants. As of March 31, 2018, the balance outstanding pursuant to the term loan was \$97.5 million at an interest rate of 3.65% and we were in compliance with all covenants under the Credit Agreement.

The Credit Agreement allows voluntary prepayment to be made at any time and from time to time to prepay the Term Loan in whole or in part without penalty or premium. As of March 31, 2018, we have made prepayments of \$30.0 million in addition to scheduled installments per the Credit Agreement. For the three months ended March 31, 2018, we made prepayment of \$5.0 million in addition to scheduled installment.

# **Stock Repurchase Program**

In February 2017, our Board of Directors authorized a program to repurchase up to \$25 million of outstanding common stock to offset potential dilution from issuances of common stock under our stock-based compensation plans. The share repurchase program will expire on February 1, 2020. During the three months ended March 31, 2018, we did not repurchase any shares of common stock. As of March 31, 2018, \$6.0 million remained available for future repurchases.

Repurchased shares are retired upon the settlement of the related trade transactions with the excess of cost over par value charged to additional paid-in capital. All repurchases were made in compliance with Rule 10b-18 under the Securities Exchange Act of 1934, as amended.

#### **Contractual Obligations and Commitments**

Our contractual obligations and commitments have not materially changed as of March 31, 2018 from those disclosed in our Annual Report on Form 10-K for the year ended December 30, 2017.

#### **Off-Balance Sheet Arrangements**

Historically, we have not participated in transactions that have generated relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. As of March 31, 2018, we were not involved in any such off-balance sheet arrangements.

#### **Recent Accounting Pronouncements**

See Note 1 of Notes to Condensed Consolidated Financial Statements.

#### Item 3. Quantitative and Qualitative Disclosures about Market Risk

For financial market risks related to changes in interest rates and foreign currency exchange rates, reference is made to Item 7A "Quantitative and Qualitative Disclosures about Market Risk" contained in Part II of our Annual Report on Form 10-K for the fiscal year ended December 30, 2017. Our exposure to market risk has not changed materially since December 30, 2017.

#### **Item 4. Controls and Procedures**

#### **Evaluation of Disclosure Controls and Procedures**

Based on our management's evaluation (with the participation of our principal executive officer and principal financial officer), as of the end of the period covered by this report, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, (the "Exchange Act")) are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms and is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

### **Changes in Internal Control over Financial Reporting**

Beginning December 31, 2017, we implemented ASC 606, "*Revenue from Contracts with Customers*", which required the implementation of internal controls to ensure we adequately evaluated our contracts and properly assessed the impact on the new accounting standard. In addition, although the new revenue standard is expected to have an immaterial impact on our ongoing revenue or net income, we implemented changes to our policies and internal controls related to revenue recognition.

# **Limitations on the Effectiveness of Controls**

Control systems, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control systems' objectives are being met. Further, the design of any control systems must reflect the fact that there are resource constraints, and the benefits of all controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within our company have been detected. These inherent limitations include the realities that judgments in decision making can be faulty and that breakdowns can occur because of simple error or mistake. Control systems can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based, in part, on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures.

# **CEO and CFO Certifications**

We have attached as exhibits to this Quarterly Report on Form 10-Q the certifications of our Chief Executive Officer and Chief Financial Officer, which are required in accordance with the Exchange Act. We recommend that this Item 4 be read in conjunction with the certifications for a more complete understanding of the subject matter presented.

#### **PART II - OTHER INFORMATION**

#### Item 1A. Risk Factors

There have been no material changes during the three months ended March 31, 2018 to the risk factors discussed in our Annual Report on Form 10-K for the year ended December 30, 2017. If any of the identified risks actually occur, our business, financial condition and results of operations could suffer. The trading price of our common stock could decline and you may lose all or part of your investment in our common stock. The risks and uncertainties described in our Annual Report on Form 10-K for the year ended December 30, 2017 are not the only ones we face. Additional risks that we currently do not know about or that we currently believe to be immaterial may also impair our business operations.

Date: May 8, 2018 By: /s/ SHAI SHAHAR

Shai Shahar

Chief Financial Officer

(Duly Authorized Officer, Principal Financial Officer,

and Principal Accounting Officer)

Dear Shai.

We welcome the opportunity to offer you a salaried, exempt position with FormFactor, Inc. (the "Company") as Chief Financial Officer, with a start date of March 5<sup>th</sup>, 2018. We look forward to having you join us at this exciting time for the Company. We are very impressed with your background, demonstrated abilities, and fundamental understanding of the challenges involved in our company, and look forward to your participation in meeting the opportunities ahead.

In your capacity as Chief Financial Officer, you will report to Mike Slessor, Chief Executive Officer, and will receive an annual salary of \$275,000, which will be paid bi-weekly in accordance with, and subject to, the Company's normal payroll procedures. You will participate in our Employee Incentive Plan (EIP) that rewards you for our performance towards FormFactor's achievement of financial objectives. You are eligible to receive 67% of your paid annual salary as part of this plan. This bonus is paid out quarterly and is conditioned upon the Company's performance and achievement of objectives. Your first quarterly participation is prorated based upon your start date through the end of the bonus period. The Company reserves the right to review or change the Employee Incentive Plan at any time. The Company will pay you a one time "sign on" bonus of \$30,000, which you will receive as a separate check, less applicable withholding taxes, included with your first paycheck. Should you voluntarily terminate your employment with FormFactor at any time during the 12-month period after your start date, the "sign on" bonus must be paid back to the Company no later than your last day of employment.

As long as you remain a regular full-time employee of the Company, you are eligible to receive certain employee benefits that are offered to our regular full-time employees which may from time to time change at the Company's discretion. These currently include:

- Medical, Dental and Vision Insurance Benefits
- Short-Term and Long-Term Disability Insurance Coverage
- Group Life Insurance
- Paid Time-Off
- 401(k) Plan and employer match
- Section 125 Flex Spending Plan
- Employee Assistance Program
- · Employee Stock Purchase Plan

Coverage for the above-mentioned medical, dental, vision, disability and life insurance benefits begin on your date of hire. Dependent coverage is also available through this plan. Employee and dependent contributions to the plan are outlined in our Benefit Plan Summary. You will be entitled to twenty days (20) of paid time-off annually. Paid time-off will accrue at the rate of 6.16 hours per pay period starting from your first day of employment. Paid time-off may be used for vacation or sick leave.

As part of your compensation package, you will receive a grant of 46,500 Restricted Stock Units (RSUs). The price of RSUs will be the closing price of the Company stock on the NASDAQ National Market on the grant date, which will be the 1st or 15th day of the month, whichever occurs first after the date of hire, or the next market trading day if the 1st or 15th falls on a weekend or holiday. The award is subject to the terms and conditions of the Company's Equity Incentive Plan. The date of the award will be the "Vesting Commencement Date" for your RSUs. The RSUs will vest in three equal annual installments on the anniversary of the "Vesting Commencement Date". In addition, you will be a participant in the Performance Restricted Stock Unit (PRSU) plan during the next cycle of awards which will occur in July or August 2018, and will be awarded a PRSU valued at \$500,000 at the time of grant.

The measurement and vesting of this award is based on FormFactor's Total Shareholder Return (TSR) performance against a group of peers over a three-year period.

Your agreement to accept this offer is contingent upon your ability to show proof of your legal right to work for the Company in the United States as well as successfully completing a background check required for all new hires. It is very important that employees of FormFactor act with integrity. Our Code of Conduct provides information about our responsibilities, commitments and applying good judgement to all we do. A copy of that Code of Conduct is included with this offer letter. We require that you read and sign a copy of this document, as well as our Employment Agreement, before you are eligible to start work at FormFactor.

You should be aware that your employment with the Company is for no specified period and constitutes at will employment. As a result, you are free to resign at any time, for any reason or for no reason. Similarly, the Company is free to conclude its employment relationship with you at any time, with or without cause.

As a FormFactor employee you are required to comply at all times with the Company's various rules, policies and procedures, including those set forth in our Statement of Corporate code of Business Conduct (the "Code"), and our Statement of Policy Regarding Insider Trading ("Policy Statement"). Copies of these documents are available via the Corporate Governance section of www.FormFactor.com. Please access www.FormFactor.com and select Investors, Stockholder Information, Corporate Governance. As a condition of employment, you are required to sign and return to the Company the enclosed Acknowledgement relating to the Policy Statement and the Code.

You should understand that, while referenced in this offer letter, the Company rules, policies and procedures are not incorporated by reference into this offer letter, and they can be changed, replaced or withdrawn at any time at the discretion of the Company.

To indicate your acceptance of the Company's offer, please sign and date this letter in the space provided below and return it with all other new hire forms in the enclosed envelope. A duplicate original is enclosed for your records. This letter, along with the Agreement, set forth the terms of your employment with the Company and supersede any prior representations or agreements, whether written or oral. This letter may not be modified or amended except by a written agreement, signed by an officer of the Company and by you. This offer, if not accepted, will expire five (5) days from the offer date. Please call me if you have any questions.

Shai, we look forward to your favorable reply and to a productive and mutually beneficial work relationship.

Sincerery,	

Mike Slessor
